Given the volume of foot pedestrians in the area all year round, congestion, lack of pavements and number of accidents; the council should consider extending the 30mph zone from Dunnings Mill to St Hill Green and up to the crossroads with Imberhorne lane

The Church of Scientology did not put on the lights they had at the gates. This was dangerous for all concerned. The road was busy with cars, trucks and vans going through the gates, eventually the Scientologists did put the lights on. The activities made me feel proud to be taking a stand against Scientology abuse and expressing my freedom	I don't think there should be a designated protest zone as protesters should be permitted to protest outside the gates. As long as we behave and follow the law, which we did, there is no reason why we can't protest there

Alleges police stopped people attending COS using mobiles while driving. On the 25th of October my main concern was that the council officials placed to observe events spent limited time with those protestors and spent more time questioning members of Scientology I must raise the concern of bias as an issue in relation to this matter	4.5hours	Notes use of umbrellas stopping protest and amplified music, traffic congestion and road was unsafe. COS actively blocked public rights of way. Barriers used by COS for my 1 submission under this process 100 other people will say that my actions impacted upon them whilst not having any contact with them or having even seen them. They will say that my one action has hurt them which would be factually and categorically untrue	there shouldn't be a designated protest zone. A PSPO would breach the right to protest.

I don't understand how they can claim to offended by material that they pointedly avoided looking at. A number of residents expressed their support for the protest, in person and from their cars.	Several hours	Frustrated. 1/ Protestors had to negotiate and compromise in order to occupy a little more of the public land that protestors had a perfect right to occupy. 2/ There was at least one surveillance camera on a prominent pole, watching the public land occupied by the protest from inside Saint Hill and played the same 3-tracks of bagpipe music on repeat, to drown out the occasional chanting and, apparently, stress protesters. 3/ Scientology even delayed switching on their own floodlights after dark to the detriment of road safety, and had to be persuaded to do so by police. The only reason for this was not to illuminate the protest.	A PSPO is a radical measure affecting the right to peacefully protest. It is designed for extreme situations, and is evidently inappropriate in this case.

We told people to enjoy themselves - but keep their credit card safe! We were not there to harass or intimidate anybody, but rather wish them well and prove with our actions that there's a kind and well-meaning world outside of Scientology. The ability to exercise our protected right to protest made me feel heard, and able to express my views in a peaceful manner. Scientology agents were expectedly aggressive towards us, at one point pushing me off the verge and into the road. 3/ Since the protest, I have been the subject of an ongoing campaign of harassment directed by the Church of Scientology, including over 1,200 Tweets in a 20 day period that superimpose my face upon disturbing and false allegations. However, I am determined to continue fighting for those whose voice has been taken away as a result of Scientology's abusive practices. I was abused by this Church, and I have nothing against their religious beliefs - but I firmly disapprove of some of their behaviours and would like to help anybody affected.	N/A

Exposed to harassment, abuse and denigration that no human should experience. I find it disgusting that they are forced to walk by those people. Freedom of speech doesn't include shouting abuse and insult in someone's face about their religion. Would this be allowed to happen at the entrance of a mosque or synagogue? Don't think so.	Perhaps the protesters can protest in town and inform the general population of their views, rather than force their views in the faces of members of our Church. Uncomfortable and a little upset. And I shouldn't have to tell my daughter to look away because the protesters were filming us and I don't want my 12 year old daughter having her image put online. There didn't seem to be a purpose to the protesters other than to disturb and make us feel uncomfortable. Yes directly to YouTube, after the protesters uploaded a video of attendees arriving on the 26th where they called my name trying to get attention while I was walking in through the entrance gate to Saint Hill with my 12 year old daughter. My grandma is 90 years old and she still attends our church events. She also had her name shouted out by the protesters along with part of her address and this was also put up on YouTube. This is outrageous and really upset me

In an age where discrimination is prohibited, I think their activity shouldn't be permitted. It's discriminatory against our religion and is extremely offensive. My children were shocked to see them standing at our doorstep.	I doubt it would be allowed at any other church so why allow it at ours?

I try and ignore them, but other times it actually makes me feel sick and upset. In addition to this, they are in fact a health and safety concern from my perspective. They stand on the verge, very close to the road and as a result Church parishioners (my friends) have to walk on the road, which is simply dangerous. , I still found them quite upsetting with their lies and messages of religious hate and bigotry. I have been an active part of Scientology for 35 years and their statements and claims are 100% lies and anti-religious, the likes of which would be highly condemned if targeted to other religions; I don't know why we have to be subject to this harassment	nothing stated

9222-0962-5924-8291	not stated	not stated	on the road	NH	Church Attendees	Eform	Offensive banners or placards, Group gatherings blocking access, Verbal or physical confrontations,Anti-social behaviour or intoxication	not stated clearly	It is unpleasant, discomforting and obstructive to have to pass by and navigate through protesters when trying to access St Hill. This has gone on now for a few years and these protesters cause problems to traffic and spoil an otherwise very nice experience. Their banners are offensive, what they say and shout is offensive and they are very confrontational - potentially criminally so. Uncomfortable and annoyed. It feels like a persecution based on my religion.	I would encourage the council to do anything they can to stop protesters around St Hill. The events at St Hill are incredibly wholesome and a great opportunity for people with common interests and religion to come together.

MSDC/CO/58	25/10/2024	Not State	n/a	JC / CO Logged	MSDC Staff	Staff Reflection After Event	JC reflection email sent 11/11/2024 My principal concern was the traffic arrangement, at times considerable queues in both directions occurred with through traffic on occasion becoming frustrated and doing manoeuvres which were inappropriate including speeding off when road clear and weaving through stationary traffic. MSDC/CO/59	27/10/2024	15:00-19:30	n/a	KB / CO logged	MSDC Staff	Staff Reflection After Event	KB reflection email sent 12/11/2024 1. Bagpipe music was played throughout the time I attended from within the entrance of Saint Hill. The music was not overbearing. On several occasions the music was turned up throughout the evening when the protestors became vocal. This did not cause too much of a disturbance. The music volume increased for short periods of time (approx 1 minute) and was then turned down to background levels again. An adult male was seen inside the turret at the main entrance controlling the music level. 2. The main hazard was pedestrians on the highway whilst accessing and leaving the COS site .Pedestrians leaving and accessing the Rugby club cut through in the large hedge on the other side of the road. The evening got dark quickly, and pedestrians were predominately in dark clothing. 3. Attendees travelling by car later in the evening were seen when queuing to enter Saint Hill, pulled into the entrance but left half their vehicle protruding out on to the highway. It was dark and would have resulted in a collision with general road users who would not have seen then vehicle as it was sideways. 4. The Saint Hill entrance was dark. Only one wall mounted entrance light was operational. When light was dimming, I requested the security to turn on the tall floodlight mounted on a tall pole at the entrance. Security went back into premises and returned stating it is faulty and can not be switched on. Fault due to change in time with the hour change in clocks the night before. Later in the evening the police requested the light be switched on and the light was turned on. This resulted in an improved lit area around the entrance. It did not adequately light the highway for pedestrians. It may have made the pedestrians when out of	n/a	There was real risk of collisions with motor vehicles using the highway. The hazard was exacerbated by the bend in the road and the speed which cars were travelling on the 60mph road. My overall summary of the event was that the protestors were peaceful and non-aggressive, they did not adversely affect the attendees who were entering Saint Hill.	not stated

Attendee traffic turning into the main entrance without paying attention to oncoming traffic. •Vehicles stopping to engage with protestors and drop off/collect attendees, but then pulling away without consideration for those vehicles moving past them or turning across them (I took one video of this) •Both points highlight a wider traffic management issue •Attendees walking out directly onto the main road through a twitten which connects Saint Hill Road to a close containing two B&B's, potentially linked to The Church. •On the few occasions when chants of 'The abuse must stop' were raised by protestors, church members were very quick to turn up the bagpipe music that was playing in the background. (I believe this was controlled from the gatehouse building directly behind the protestors.) •On one occasion, a protestor called out an attendees first name, but this didn't cause any animosity in this case	n/a	Traffic management issues created by this event. MSDC/NH/93	25/10/2024	3-7PM	n/a	PT/NH logged	MSDC Staff	Staff Reflection After Event	<p>PT reflection sent on 22/11/2024. Summary of Observations</p> <p>Approximately 14-15 protesters were present. They marched from the town centre to the protest point outside the church gates. I observed no physical threats, foul or abusive language. I witnessed protesters filming themselves and potentially vehicles entering the church but were not directly pointing cameras at the cars.</p> <p>Safety Concerns and Timeline of Activities</p> <p>Council Presence: Council officers were on-site beginning at 3:00 p.m., observing public activity along Saint Hill Road. The main protest activities occurred between 4:00 p.m. and 7:00 p.m.</p> <p>Road Safety: I had noted the following road safety concerns as security staff, protesters, church attendees, and residents were intermittently on the road, including during busy traffic times. Given that this is a 60-mph road, this presented risks for both pedestrians and vehicles and the afore mentioned groups. Lighting on the road is particularly poor and the church entrance isn't clearly signposted until the turning presents itself to the driver. Several cars overshot the turning on the night with some cars breaking in the road or trying to reverse to make the turn.</p> <p>Interactions and Behaviour Observed</p> <p>Interaction with Church Attendees: Some attendees mistook council officers in high-visibility vests for event staff, seeking parking directions. Protesters (also in high visibility) were also asked for directions by attendees, and they provided these directions in a polite and safe manner. Parking guidance was also provided by council staff.</p> <p>Interactions with Protesters: I did not observe any rude or abusive behaviour among the protesters. However, some attendees expressed discomfort with the filming and presence of protesters at the church</p>	n/a	Road safety concerns security staff, protesters, church attendees, and residents were intermittently on the road, including during busy traffic times. MSDC/NH/94	10/25/2024 & 26/10/2024	not stated	n/a	NH/NH logged	MSDC Staff	Staff Reflection After Event	<p>NH, Team Leader, Observation Summary.</p> <p>Reflecting on the events of October 25th and 26th, there were several safety issues observed, particularly concerning road and pedestrian safety, as well as some areas where event management could have been improved. Myself and MSDC Officers arrived at 3pm at each event date stated above. Around 12-15 protestors attended demonstrations.</p> <p>Observed Safety Hazards and Issues</p> <p>1/ Pedestrian Safety: Not all attendees were able to park on the premises, requiring them to walk along a 60mph narrow, dark road to reach the entrance from designated parking areas. Guest attending were all wearing formal and in most cases dark clothing so were not easily visible for oncoming traffic. This presented a risk due to the high-speed traffic and lack of clear pedestrian paths.</p> <p>2/ Lack of Visibility and insufficient lighting: Church security staff were not wearing high-visibility clothing, putting themselves at risk while managing attendees and traffic. COS attendees were at times required to walk in the road to get to entrance and with inadequate lighting this seemed very dangerous as St Hill road is a 60mph road. The Church did not activate floodlights until after dark, which made the entrance hard to see for oncoming traffic. Several drivers missed the entrance, which led to some larger vehicles struggling to turn around on the busy road.</p> <p>3/ Traffic Direction and Coordination: There was no one directing traffic at the entrance, causing congestion, several near-miss incidents, and drivers using their horns in frustration. This lack of coordination increased the risk of accidents.</p> <p>4/ Noise Control: On Friday 25th October, the Church played loud bagpipe music over a PA system near the entrance and where protestors</p>	n/a	My main concern was road safety due to no traffic management in place, poor lighting and signage around entrance, COS security not wearing hi visibility clothing whilst for long periods of time they were standing on the entrance road. COS attendees who could not park within the COS complex they were required to walk along st Hill road which is not well lit and 60 mph.	not stated

At 1544hrs I met the protesters on St Hill Road East Grinstead where I introduced myself to Protestor 1 who I had previously met and spoken to on the phone to organise where I would meet them and at what time. As they were walking down the road, I could see the protestors were all wearing high visibility vest or jackets, and some were holding placards. I believe these had words to the effect of “THE ABUSE HAS TO STOP” and “STOP THE ABUSE” written on them. I could also hear chanting of “THE ABUSE HAS TO STOP” which was being repeatedly shouted as they walked along the road but immediately stopped when they spoke to me. I initially walked Alex down to the entrance of the St Hill Manor where we discussed where they would stand. As I walked towards the entrance, I could hear the sound of bagpipes being played out of several speakers onto the roadside on repeat which was very loud. This was all recorded on my Body worn video (BWV) which I have exhibited as DAJ/02 and uploaded onto the police computer systems. The protestors were then escorted down to the area and positioned on the side of the road along the wall of St Hill Manor between the East Grinstead Rugby club and the main site entrance. Where they would be able to see people attending but not affect either the road or foot traffic to the site. Throughout the afternoon they stayed in this area which we agreed upon on arrival at the side of the road and did not venture onto the road or into the entrance of the site to block any vehicles at any time. On the 26th and 27th October 2024 I was required to attend and co-ordinate the police attendance to The Saint Hill Church of Scientology Annual Conference. As part of this conference I was aware of planned protest that was to occur outside the grounds. The role of the police in a protest is to remain impartial and protect the rights of the person to convey their right to freedom of speech whilst also ensuring the protest is peaceful and causes minimal disruption to the public.</p> <p>On the 26th October 2024 I was on duty and in full uniform in callsign WMP93. I was provided some contact details for the two stakeholders to contact to facilitate a peaceful protest from both sides. B was the head of security for Saint Hill. Protestor 1 was the lead protestor.</p> <p>I communicated with both parties. Protestor 1 was due to arrive at around 1400 hours to Saint Hill along with some other protestors. I attended along with PC M, PC H, PCSO F, PCSO W, PCSO U and PCSO P. On attendance I could see a clear bit of clear offroad section to the left of the main entrance to Saint Hill that was a suitable place to be occupied by the protestors. There was some metal fencing that had been put on a piece of the offroad section separating where it became paved. Playing on a speaker from Saint Hill was a continued loop of bag pipes. I was made aware that Protestor 1 and other protestors stood at this location previous years. I went and met with B who introduced me to a number of staff at Saint Hill and discussed the event plan for the evening. The site itself is a narrow country road not designed for a large amount of foot traffic. Within discussion Police state they are not sure who the cars belong to as it could be from the Rugby club members or COS attendees. Protestor 1 highlighted the barrier erected by COS staff causes people to walk in the road if they want to go past which is unsafe, also claim the path on the other side of barrier is public land. Protestor 1 also highlighted that COS security stand in front of protestors with open umbrellas to hide protest. Police officer CM559 confirmed within video recording that COS members agreed to turn down the volume to the audio system playing bagpipe music. Protestor 1 agreed that protestors would collaborate with COS staff and stay within their allocated area for the majority of the event (bar the odd one or two who may cross entrance road) if the COS security did not stand in front of them and raise their umbrellas. At 5:10 COS spoke to police regarding this proposal. 7:55 agreed COS members about removing barriers and security from being in front of protestor area, they did highlight that the footpath was part of COS premises and they had paper work to prove this. 9:45 Protestor 1 agreed to these conditions but rejected the fact that pathway outside COS premises was in fact theirs and is actually public property. 10:25 COS member refused to remove barrier which was left as no agreement apart from music being turned down being struck.	11 minutes 47 seconds	COS agreed to the music they were in control of to be turned down. MSDC/NH/110	25,26th,27th/10/2024	not stated		COS Solicitor/NH logged	COS Solicitor	Letter	a comparison video showing 2024 and 2023 protests. (COS Solicitor) regarding COS observations of the three events which took place on 25th, 26th and 27th October 2024. He states that although Mid Sussex District Council Officers and Church volunteers encouraged COS attendees to send in online statements, it is evident that a lot of COS members missed this or were wary or unwilling to do this. Within this evidenced letter COS Solicitor summarises the complaints that were heard by the church.1/ states that having the four MSDC Officers present at each of the three events seemed to lead to improved behaviour by protestors (COS Solicitor supplied a video as evidence of comparisons). 2/ upsetting for many COS members to see anti-Scientologists at the entrance to their place of worship. 3/ Highlights that part of COS religion for adherents to avoid having contact with persons who are publicly antipathetical to the religion, Accordingly, Scientologists were placed in an invidious position of having to go against that teaching simply to enter their church. 4/ Parking: EG Rugby club provided an overflow car park on the Friday evening, with anti-Scientologist lining the side of the road next to the entrance this forced COS members who parked there to walk through or past the protestors , so the Church decided to move their overflow carpark from EG Rugby club to their grounds at nearby Fonthill which meant a walk of an additional 300 metres or so for Scientologists, some of which elderly. COS members expressed unhappiness at the distance of the walk, COS stated that this was preferable to subjecting them to taunts of the anti-Scientologists and humiliation of being videoed and live streamed on the internet whilst being taunted. 5/ Prior to the weekend its organiser sent LC Assistant Director for MSDC an e mail offering to agree on acceptable conduct from the protest which they	not stated	Upsetting for COS to see protestors outside their place of worship. I have been requested to provide this statement in respect of a protest I attended on 3rd NOVEMBER 2023. I am writing this statement on 29th NOVEMBER 2024. I do not recall a great deal about the event, given it was over a year ago.</p> <p>On Friday 3rd November 2023 I was on duty in uniform conducting my duties as a Police Sergeant with the Neighbourhood Policing Team, based at Haywards Heath Police Station.</p> <p>On this shift, I was tasked with attending a planned protest which was due to take place on SAINT HILL ROAD, EAST GRINSTEAD, outside the premises occupied by the Church of Scientology. The Church of Scientology were hosting an event over the weekend in which they were anticipating significant numbers of attendees.</p> <p>The protestors made their way to the location from EAST GRINSTEAD TOWN CENTRE at around 1430. I do not recall the number of people within the group or the exact time they arrived at SAINT HILL ROAD. Police facilitated their journey when they reached SAINT HILL ROAD, due to a lack of footpaths and the protestors needing to walk on the road. The group were escorted by police to a location at the side of the road a short distance from the entrance to the Church of Scientology premises. The Church of Scientology had numerous security staff working, some of whom were stationed at the entrance and lining the boundary of their premises behind where the protestors decided to stand.</p> <p>Police monitored the group for a few hours, who remained at the side of the road. One of the attendees had a loud hailer and other members of the group had banners and placards. I do not recall what was written on them. The protestors did not cause obstructions to the road, except for during the time they were escorted to and from their protest location.</p> <p>There were traffic issues caused by the number of people attending the Scientology event and the traffic was heavily backlogged on and around SAINT HILL ROAD,</p>	n/a	Protestors marched from East Grinstead Town Centre to St Hill Road where the Police facilitated their journey as there are no available footpaths and protestors required to walk on the road. Statement highlights Sgt AB arrival time on 5th November 2023 to East Grinstead St Hill road, COS entrance of around 16:00.Handover took place with previous Sgt Fahey who highlighted a minor issue at rear of gates of Saint Hill Manor, no actual input provided into what this was. Sgt AB highlighted how he placed a pair of PCSO's on the front and rear gates at saint Hill Manor. Sgt AB was stationed at the front of the COS Manor and observed between six and ten persons protesting against the COS along with COS security staff present. Whilst Sgt AB stood at the gates for 6 hours the protest was peaceful as were both the protestors and COS security. No issues recorded. Only issues recalled by Sgt AB were people walking along St Hill Road to and from car parks at the Rugby club and Sports clubs. These people were often in dark clothing and the road is unlit. Sgt AB has policed the protest at this location several times in the past 6 years, in general there are a small amount of protestors who sometimes play music and the generally stand as near to the main entrance of Saint Hill Manor and whilst I he has been present, matters have been peaceful between all parties.</p>	n/a	Main impacts highlighted were around road safety, with people walking along St Hill road in dark clothing to and from alternative car parks outside of main complex.	not stated

MSDC/NH/109	15/07/2024	not stated	Saint Hill Road	COS Solicitor/NH logged	Hodkin & Company Solicitors & Notary Public	PSPO letter request from Hodkin & Company on behalf of the COS	The letter from COS Solicitor received on July 2024 highlights COS request for a PSPO under the Anti-Social Behaviour, Crime and Policing Act 2014, section 59 following a review of the welfare and safety of members of the church and other visitors to the church properties on Saint Hill Road. Also states that a copy of the requested order was sent alongside this as an attachment (recorded MSDC/NH/108) The remaining letter provides examples of why they feel a PSPO is warranted and the actions of the anti-Scientologists. (protestors)	not stated	land COS own. Mentions Saint Hill road speed limit of 60mph and no pavements that there are no pavements available. Highlights expansion since first built in 1960s and is becoming more popular nationally and internationally, it also states the wide range of events and activities across the year. States of the anti-Scientologists who attend to demonstrate outside of property on Saint Hill Road especially at the International Association of Scientology events. Highlights ruling from the High Court which recognised COS was a religion and described earlier treatment of Scientologists as illogical, discriminatory and unjust. The letter states that it recognises the right to freedom of speech as long as this is done in a way which respects the rights of others, avoids hate speech and maintains public safety but the manner in which demonstrations have occurred outside of the church on Saint Hill road has not respected the rights of others, not avoided hate speech and has threatened public safety. With this in mind COS Solicitor states the activities of the anti-Scientology demonstrations on Saint Hill road have had a detrimental effect on the quality of life of those in the locality. The second condition is that the effect, or likely effect of activities - a/ is, or is likely to be of a persistent or continuing nature, b/ is, or likely to be, such as to make the activities unreasonable, and c/ justifies the restrictions	Request for a PSPO on St Hill Road which is supported by both Rockwood Park Residents, East Grinstead Rugby Club and East Grinstead Sports Club.
